In terms of interior, the 2023 WE version of the Extreme Krypton ZEEKR 001 has a very fashionable 140kWh interior, equipped with a full LCD instrument panel and central control screen, made of high-quality materials, providing comfortable seats and a multifunctional steering wheel. In addition, the car is also equipped with an intelligent voice system.

In terms of battery life, Jikrypton 001 has launched four versions, namely 1032km, 546km, 656km, and 741km, with excellent battery life performance. The fastest acceleration per 100 kilometers is only 3.8 seconds, which has attracted many consumers to pay for its excellent handling. By pressing the switch, the driver can feel a continuous flow of power output, giving the user sufficient driving confidence. All models in the series support optional suspension soft and hard height adjustment, which can effectively filter out road bumps and vibrations no matter how rough the road is. In addition to excellent acceleration ability, what's more important is the inherent high-end feeling, which is still rare for pure electric models.
