

Pure Electric Pickup Trucks 5 Seater Sustainable Versatile Design

Our Product Introduction

for more products please visit us on evcar.cn

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Dongfeng
- Model Number: Pickup
- Minimum Order Quantity: 1
- Price: \$43,188.00/pints 1-2 pints
- Packaging Details: 1
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Product Name: Electric Car
- Color: Yellow
- Body Structure: 5-door 5-seat
- Max Speed: 90 Km/h
- Battery Type: Lithium Iron Phosphate Battery
- Charging Time: 1.5 Hour
- Level: Pickup
- Length * Width * Height: 5290x1850x1820mm
- Port: Shenzhen
- Highlight: pure electric pickup trucks, electric pickup trucks sustainable, pickup trucks 5 seater versatile

Product Description

China Dongfeng Pickup Truck EV Electric Car New Energy Vehicles Pure

Electric: The Dongfeng Pickup Truck EV is an electric vehicle, offering a sustainable and eco-friendly transportation solution.

Efficient Performance: This pickup truck delivers impressive performance with its efficient electric motor, providing a smooth and powerful driving experience.

Versatile Design: The truck is designed to be versatile, featuring a spacious cargo bed that can accommodate various loads and a comfortable cabin for the driver and passengers.

Advanced Features: It comes equipped with advanced features such as regenerative braking, intelligent connectivity, and modern safety technologies to enhance convenience and safety.

Long Range: The EV offers an impressive range, allowing users to travel long distances without worrying about recharging frequently.

Product Description

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Pickup Car Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts

sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The Pickup Car continues the design style of the fuel version and is also the design orientation that continues the UNI series, because East Wind established this series at the beginning to make it go further. However, the Pickup Car is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
