

Auto Sustainable Electric Vehicles EV Environmentally Friendly SUV Car

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Chetianxia
- Model Number: ID 4 Crozz
- Minimum Order Quantity: 1
- Price: \$20,000.00/pieces 1-4 pieces
- Delivery Time: 30
- Payment Terms: T/T
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Product Name: Electric Car
- Color: Optional
- Body Structure: 5-door 5-seater SUV
- Max Speed: 160 Km/h
- Energy Type: Pure Electric/100% Electric Car
- Charging Time: 0.5 Hour
- Battery Type: Lithium Iron Phosphate Battery
- Length * Width * Height: 4612x1852x1640mm
- Port: Shenzhen
- Highlight: **ev environmentally friendly suv, sustainable electric vehicles ev, auto sustainable electric vehicles**

CLTC pure electric range (km)	425	425	600	600
Battery type	ternary lithium battery	ternary lithium battery	ternary lithium battery	ternary lithium battery

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the ID.4 CROZZ Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The ID.4 CROZZ continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Dazhong established this series at the beginning to make it go further. However, the ID.4 CROZZ is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
