The BYD Song Plus DM-i is a plug-in hybrid electric vehicle (PHEV) produced by BYD Auto, a Chinese automaker specializing in electric vehicles. The Song Plus DM-i is an upgraded version of the Song Plus model

Hybrid Mode: When additional power or extended range is required, the internal combustion engine kicks in, working in conjunction with the electric motor. The vehicle intelligently switches between electric and gasoline power to optimize efficiency and performance.

The DM-i designation stands for Dual Mode Intelligent, highlighting the vehicle's hybrid capabilities. As a PHEV, the Song Plus DM-i combines an internal combustion engine (ICE) with an electric motor and a larger battery pack compared to traditional hybrid vehicles
