Body type	Five door five seat SUV	Battery type	Lithium iron phosphate battery
Front suspension type	McPherson independent suspension	Rear suspension type	Torsion beam dependent suspension
Front tire specification	205/60 R16	Rear tire specification	205/60 R16

In terms of interior, the new car will also maintain a high degree of consistency with the old model, and the fresh blue dual color interior provided by the new model is one of the highlights of this facelift.

In terms of power, it will be equipped with a front single motor with a maximum power of 70kW and a maximum torque of 180N · m. It will be equipped with a lithium iron phosphate blade battery with battery capacities of 38kWh and 47.04kWh, providing two types of range: 320km and 401km.

The rear design of the new car is relatively simple, with a small backpack in the middle and a spoiler at the rear, showcasing a sporty style. The smoked tail lights on both sides illuminate the moment with high recognition. The rear lip, which is equipped with a diffuser below, exudes a more sporty atmosphere

In terms of appearance, the new BYD Yuan Pro adopts the Dragon Face 3.0 design language. The front face adopts a closed grille, and a silver chrome decorative plate is used in the middle to connect the two sides of the star diamond electric suspended LED headlights, which is simple and fresh. The powerful front lines on both sides are raised, giving the overall body a dynamic feel.
