

Small Second Hand Hybrid Cars Vehicles SUV Electric BYD Song Plus

Our Product Introduction

for more products please visit us on evcar.cn

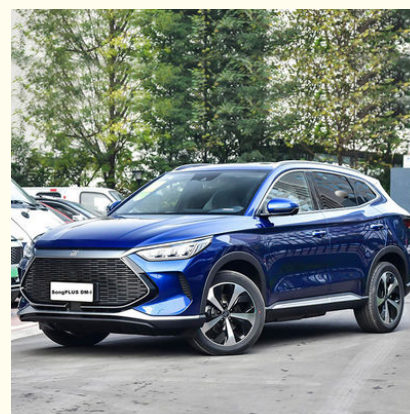

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: BYD Song Plus DM-I
- Minimum Order Quantity: 1
- Price: \$23,884.00/pieces 1-2 pieces
- Packaging Details: 1
- Delivery Time: 30
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

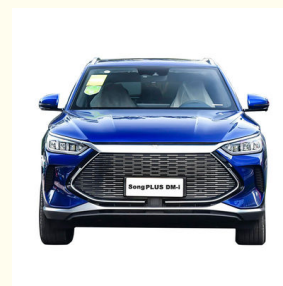

Product Specification

- Product Name: Electric Car
- Type: Second Hand
- Body Structure: 5-door 5-seater SUV
- Fuel: Plug-in Hybrid
- Max Speed: 170 Km/h
- Charging Time: Slow Charge
- Length * Width * Height: 4705x1890x1680
- Level: Small SUV
- Port: Shenzhen
- Highlight: small second hand hybrid cars, suv second hand hybrid cars, suv second hand hybrid vehicles

Product Description

New Energy Vehicles Hybrid BYD Song Plus EV Electric Car SUV Flagship

Powertrain: The Song Plus Hybrid EV utilizes a combination of an internal combustion engine and an electric motor. The electric motor works in tandem with the engine to assist during acceleration and provide additional power when needed. The battery pack stores electrical energy that is used to power the electric motor.

Electric Assistance: The electric motor in the Song Plus Hybrid EV provides electric assistance to the internal combustion engine, particularly during acceleration and in situations where extra power is required. This electric assist helps improve overall performance and fuel efficiency.

Regenerative Braking: Hybrid vehicles like the Song Plus often employ regenerative braking, which allows the electric motor to act as a generator and convert kinetic energy into electrical energy during braking. This energy is then stored in the battery pack for later use, further enhancing efficiency.

Fuel Efficiency: The combination of the internal combustion engine and electric motor in the Song Plus Hybrid EV results in improved fuel economy compared to traditional gasoline-only vehicles. However, the specific fuel efficiency will vary depending on factors such as driving conditions, driving style, and the size of the battery pack.

Interior and Technology: The Song Plus Hybrid EV is likely to offer various interior features and technologies, similar to other modern vehicles. These may include infotainment systems, connectivity options, advanced driver assistance systems, and other amenities.
