## Product Description

China Hybrid BYD Song Pro Electric Car Suv New Energy Vehicles DM-I

The BYD Song Pro is a car model produced by BYD Auto, a Chinese automobile manufacturer. The Song Pro is available in various versions, including both internal combustion engine (ICE) and electric powertrain options.

Powertrain Options: The Song Pro is available with different powertrain options, including gasoline engines for the ICE version and electric motors for the EV version. The EV variant is known as the BYD Song Pro EV.

Electric Version: The BYD Song Pro EV is an all-electric vehicle (EV) that operates solely on electric power. It does not have an internal combustion engine, relying instead on an electric motor and a battery pack for propulsion.

Electric Range: The electric version of the Song Pro is likely to have an electric range that indicates how far it can travel on a full charge. The specific range can vary depending on factors such as battery capacity, driving conditions, and driving style.

Battery and Charging: The electric version of the Song Pro is equipped with a battery pack that stores the electrical energy needed to power the electric motor. Charging options typically include both standard AC charging and faster DC fast charging, depending on the charging infrastructure available.
