

BYD Song Small Plug In Hybrid Electric Vehicle SUV New Energy

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: BYD Song Plus
- Minimum Order Quantity: 1
- Price: \$25,000.00/pieces 1-2 pieces
- Packaging Details: 1
- Delivery Time: 30
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Steering: Left
- Emission Standard: Euro III
- Year: 2021
- Month: 3
- Mileage: 25001-50000 Miles
- Make: BYD
- Type: SUV
- Fuel: Electric
- Engine Type: Naturally Aspirated
- Cylinders: 3
- Maximum Power(Ps): 100-150Ps
- Gear Box: Automatic
- Forward Shift Number: 4
- Maximum Torque(Nm): 200-300Nm
- Wheelbase: 1500-2000mm

Product Description

New Energy Vehicles Pure BYD Song Plus EV Electric Car Used SUV Cars

BYD Song plug-in hybrid electric vehicle ses a 1.5L 4-cylinder petrol engine combined with two electric motors. One motor is between the engine and transmission, the other is on the rear axle.

Battery - The 38kWh lithium-iron-phosphate battery is fitted under the rear seats. This chemistry provides improved thermal stability over nickel-based batteries.

Electric Motors - The front motor produces 85kW, the rear 60kW. Together they provide a maximum system output of 160kW (215hp) in sport mode.

Transmission - It uses a CVT automatic gearbox for smooth and efficient driving in electric, hybrid or engine-only modes.

EV Mode - The front and rear motors together power the Song up to a maximum speed of 130kph solely on battery power.

100km consumes electricity time(Kwh/100km)	13.1	13.1	15.9	15.9

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Song PLUS EV Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The Song PLUS EV continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Byd established this series at the beginning to make it go further. However, the Song PLUS EV is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
