

## Versatile New Energy Car Innovative Four Wheel Electric Car Sleek Design

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: BYD Seagull
- Minimum Order Quantity: 1
- Price: \$10,302.00/pieces 1-9 pieces
- Packaging Details: 1
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

#### Product Specification

- Product Name: Electric Car
- Color: Optional
- Energy Type: Battery Electric Vehicle
- Charging Time: 0.5 Hour
- Length \* Width \* Height: 4150x1770x1570
- Wheel: Four
- Max Speed: 160 Km/h
- Battery Type: Lithium Iron Phosphate Battery
- Port: Shenzhen
- Highlight: versatile new energy car,  
new energy car innovative,  
four wheel electric car sleek

Product Description

New Energy Vehicles Pure Cars BYD Seagull EV Electric Car Dolphin

The BYD SEAGULL is an innovative and versatile product offered by Amazon. It is a top-rated electric vehicle manufactured by BYD, a leading automotive brand known for its cutting-edge technology and commitment to sustainability.

With its sleek design and advanced engineering, the BYD SEAGULL offers an exceptional driving experience. Powered entirely by electricity, it boasts zero emissions, making it an eco-friendly choice for those who prioritize reducing their carbon footprint. The electric motor provides a smooth yet powerful acceleration, ensuring a responsive and enjoyable ride every time.

Equipped with state-of-the-art features, the BYD SEAGULL delivers both comfort and convenience. Its spacious interior accommodates up to five passengers, providing ample legroom and headspace. The vehicle comes with modern amenities such as a touchscreen infotainment system, Bluetooth connectivity, and a premium audio system, keeping passengers entertained and connected during their journey.

Safety is paramount in the BYD SEAGULL, as it incorporates advanced driver-assistance systems. These technologies assist drivers in avoiding collisions and staying aware of their surroundings. With features like adaptive cruise control, lane-keep assist, and autonomous emergency braking, the BYD SEAGULL prioritizes the well-being of both occupants and pedestrians on the road.

Motor type	Front PM/Sync	Front PM/Sync
Motor total power (kWh)	30.7	44.9
Battery Type	Lithium iron phosphate battery	Lithium iron phosphate battery
Front tire specification	195/60 R16	195/60 R16
Rear tire specification	195/60 R16	195/60 R16

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Chang an UNI-V Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale 1.5T hybrid dedicated turb ocharged engine, with a maximum hor sepower of 170Ps and a maximum tor que of 260N • m. With the assistance of an electric motor, the system's com

prehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

Brand new car with 0 KM mileage, please contact us for more details

## NEW ENERGY VEHICLE CHARGING

## FAQ
