Fuel	100% Electric
NEDC	401KM
SIZE	4450*1760*1520
Maximum power	100kW
Tire size	R16
Body structure	4-door 5-seater Sedan
Battery type	Lithium Iron Phosphate Battery

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Chang an UNI-V Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale 1.5T hybrid dedicated turbocharged engine, with a maximum hor

sepower of 170Ps and a maximum torque of 260N · m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N · m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

Brand new car with 0 KM mileage, please contact us for more details
