

innovative Sedan Vehicle contemporary Battery electric 4 wheel car

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: Byd Dolphin
- Minimum Order Quantity: 1
- Price: \$15,000.00/pieces 1-4 pieces
- Packaging Details: 1
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Product Name: Electric Car
- Color: Optional
- Energy Type: Battery Electric Vehicle
- Charging Time: 0.5 Hour
- Length * Width * Height: 4150x1770x1570
- Body Structure: 5-door 5-seat
- Max Speed: 160 Km/h
- Battery Type: Lithium Iron Phosphate Battery
- Port: Shenzhen
- Highlight: innovative sedan vehicle, sedan vehicle contemporary, battery electric 4 wheel car

Product Description

China Sedan Byd Dolphin Electric EV Car 4 Wheel New Energy Vehicle

The Byd Dolphin Electric EV Car is an innovative and eco-friendly electric vehicle that offers a seamless blend of style, performance, and sustainability. Designed by the renowned automotive manufacturer, Byd, this cutting-edge car sets new standards in the world of electric mobility.

With its sleek and contemporary design, the Byd Dolphin Electric EV Car stands out on the road, effortlessly combining aerodynamics with elegance. Whether you're driving through city streets or embarking on long journeys, this vehicle's striking appearance is sure to turn heads wherever you go.

Equipped with advanced electric technology, the Byd Dolphin Electric EV Car provides a smooth and efficient driving experience. Its powerful electric motor delivers impressive acceleration, allowing you to cruise through traffic with ease. The car also boasts a long-lasting battery that ensures a significant range, enabling you to travel longer distances without worrying about recharging.

Safety is a top priority for Byd, and the Dolphin Electric EV Car is no exception. Packed with an array of state-of-the-art safety features, including advanced braking systems and comprehensive airbag protection, this vehicle provides peace of mind for both the driver and passengers.

Product Description

BYD Dolphin

Motor type	Front PM/Sync	Front PM/Sync
Motor total power (kWh)	30.7	44.9
Battery Type	Lithium iron phosphate battery	Lithium iron phosphate battery
Front tire specification	195/60 R16	195/60 R16
Rear tire specification	195/60 R16	195/60 R16

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Haitun Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a

Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The HaiTun continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Byd established this series at the beginning to make it go further. However, the HaiTun is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
