

BYD E9 Electric EV Cars High Speed Midsize New Energy Vehicles

Our Product Introduction

for more products please visit us on evcar.cn

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: BYD E9
- Minimum Order Quantity: 1
- Price: \$34,676.00/pieces 1-2 pieces
- Packaging Details: 1
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Product Name: Electric Car
- Body Structure: 4-door 5-seater
- Color: Black
- Max Speed: 185 Km/h
- Charging Time: 0.5 Hour
- Battery Type: Lithium Iron Phosphate Battery
- Level: Midsize SUV
- Length * Width * Height: 4980x1940x1495mm
- Port: Shenzhen
- Highlight: e9 electric ev cars, electric ev cars high speed, electric car high speed Midsize

Integration of smart technology, such as voice control and smartphone connectivity - High-quality build and materials used throughout the vehicle

Exceptional driving performance and handling, providing a smooth and enjoyable ride - Competitive pricing compared to other electric vehicles in its class

Product Description

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted.

Based on our previous test drive of the Byd E9 Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The Byd E9 continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Byd established this series at the beginning to make it go further. However, the Byd E9 is currently the only plug-in hybrid sedan in the

series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
