

China Pure Electric EV Cars New Energy Vehicle EV Byd Dolphin

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Price: \$15,000.00/pieces 1-4 pieces
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Steering: Left
- Emission Standard: Euro III
- Year: 2023
- Month: 3
- Mileage: 25001-50000 Miles
- Make: BYD
- Type: Sedan
- Fuel: Electric
- Engine Type: Naturally Aspirated
- Cylinders: 3
- Maximum Power(Ps): 100-150Ps
- Gear Box: Automatic
- Maximum Torque(Nm): ≤100Nm
- Wheelbase: ≤1500mm
- Number Of Seats: 5

Body structure	5-door 5-seat	5-door 5-seat
Wheelbase (mm)	2700	2700
Motor type	Front PM/Sync	Front PM/Sync
Motor total power (kWh)	30.7	44.9
Battery Type	Lithium iron phosphate battery	Lithium iron phosphate battery
Front tire specification	195/60 R16	195/60 R16
Rear tire specification	195/60 R16	195/60 R16

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the Haitun Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N · m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N · m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The Haitun continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Byd established this series at the beginning to make it go further. However, the Haitun is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
