

New Energy Used Sedan Cars Vehicles With RWD Drive Steering System

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: BYD
- Model Number: BYD Seagull
- Minimum Order Quantity: 1
- Price: \$11,588.00/pieces 1-4 pieces
- Delivery Time: 30
- Payment Terms: T/T
- Supply Ability: 100Piece/Pieces per Month

Product Specification

- Steering: Left
- Emission Standard: Euro III
- Engine Capacity: < 4L
- Year: 2023
- Month: 4
- Mileage: 25001-50000 Miles
- Make: BYD
- Type: Sedan
- Fuel: Electric
- Engine Type: Naturally Aspirated
- Maximum Power(Ps): 100-150Ps
- Gear Box: Automatic
- Maximum Torque(Nm): 100-200Nm
- Wheelbase: 1500-2000mm
- Number Of Seats: 4

Motor total power (kWh)	30.7	44.9
Battery Type	Lithium iron phosphate battery	Lithium iron phosphate battery
Front tire specification	195/60 R16	195/60 R16
Rear tire specification	195/60 R16	195/60 R16

In terms of suspension, a combination of front MacPherson independent suspension and rear multi link independent suspension is adopted. Based on our previous test drive of the HAIUO Intelligent Electric iDD, we adopted a sporty tuning style, bringing solid and agile driving performance. At the same time, the chassis is equipped with power batteries and necessary battery brackets in the middle, so the entire chassis brings a stable and compact driving feel.

In terms of interior design, it can be seen that the entire interior adopts sharp angular design elements, with a prominent center console design. Details such as the cockpit style gear lever area, three spoke steering wheel, and through air vents enhance the overall texture. At the same time, the entire center console is tilted towards the driver's side, which not only enhances convenience but also brings a good visual aesthetic.

In terms of power, it is equipped with a Blue Whale dedicated turbocharged engine, with a maximum horsepower of 170Ps and a maximum torque of 260N

1701.5 and a maximum torque of 200N • m. With the assistance of an electric motor, the system's comprehensive maximum torque reaches 590N • m. It is matched with a 6-speed three clutch electric drive transmission, which takes only 6.5 seconds to break 0-100km/h.

The HAIYOU continues the design style of the fuel version and is also the design orientation that continues the UNI series, because Byd established this series at the beginning to make it go further. However, the HAIYOU is currently the only plug-in hybrid sedan in the series, and is more focused on handling and driving pleasure. Therefore, its overall design style also presents sporty characteristics.
