Product Description:

Electric EV Cars - Product Overview

Electric EV Cars is a new and innovative line of SUVs that are designed to revolutionize the way we think about driving. These electric drive cars are the future of transportation, offering zero-emission cars that are not only environmentally friendly, but also stylish and high-performing.

With the rise of global warming and the depletion of fossil fuels, it has become more important than ever to find alternative modes of transportation. Electric EV Cars is leading the way with their cutting-edge technology and commitment to sustainability.

Autopilot: Yes

One of the most exciting features of Electric EV Cars is its autopilot function. This advanced technology allows the car to drive itself, making your daily commute or long road trips a breeze. With autopilot, you can sit back and relax while your car takes care of the rest.

Sunroof: Sunroof

Experience the beauty of the outdoors while still being inside your car with the sunroof feature. Electric EV Cars offers a panoramic sunroof that allows natural light to flood the interior and provides a stunning view of the sky. You can also open it up on a nice day to feel the fresh air and enjoy the breeze.

Rear Window: Electric

Say goodbye to manually opening and closing your rear window. With Electric EV Cars, the rear window is electric, making it easy and convenient to use. You can control it with just a touch of a button, and you'll never have to strain your arms to open or close it again.

Type: SUV

Electric EV Cars are designed as SUVs, providing ample space for both passengers and cargo. Whether you're going on a family vacation or running errands around town, these SUVs have enough room to accommodate your needs. They also come equipped with advanced safety features to ensure a smooth and secure ride.

Condition: New

All Electric EV Cars are brand new, ensuring the highest quality and performance. From the sleek exterior design to the state-of-the-art technology inside, every aspect of these cars is carefully crafted and tested. You can trust that your Electric EV Car will be in perfect condition upon delivery.

Electric EV Cars is more than just a car brand, it's a lifestyle. Join the movement towards a greener future and experience the convenience and luxury of driving an electric car. Embrace the power of Electric EV Cars and be a part of the change.

Applications:

Product Description

The Volkswagen ID4 Crozz is a revolutionary electric vehicle (EV) car that is designed to provide a zero-emission, environmentally friendly and intelligent driving experience. With its sleek design and advanced technology, the ID4 Crozz is the perfect choice for modern urban life.

Brand Name: Volkswagen

The Volkswagen brand is renowned for its high-quality, reliable and innovative cars. With the ID4 Crozz, Volkswagen continues to push the boundaries of electric powered cars and set new standards for the automotive industry.

Model Number: ID4 Crozz

The ID4 Crozz is the latest model in Volkswagen's electric vehicle lineup. It combines cutting-edge technology, advanced design, and superior performance to provide a truly exceptional driving experience.

Place of Origin: Shenzhen

The ID4 Crozz is proudly made in Shenzhen, a city known for its technological advancements and innovative spirit. This ensures that the car is of the highest quality and meets the highest standards of design and engineering.

Minimum Order Quantity: 1

Whether you are an individual looking for a personal vehicle or a business looking to add an eco-friendly car to your fleet, the ID4 Crozz has a minimum order quantity of just one. This makes it accessible to everyone and allows for more people to contribute to a cleaner and greener environment.

Price: \$20364-23047

The ID4 Crozz is available at a competitive price range of \$20364-23047, making it an affordable option for those looking for an electric car with top-notch features and performance. With its high value for money, the ID4 Crozz is a smart investment for individuals and businesses alike.

Packaging Details: Normal

The ID4 Crozz is packaged using the standard and reliable packaging materials and methods. This ensures that the car is delivered to you in perfect condition, ready to hit the road and take you on your next adventure.

Delivery Time: 15

The ID4 Crozz has a quick delivery time of just 15 days, making it one of the fastest electric cars available in the market. This means you won't have to wait long to start enjoying the benefits of owning an EV car.

Payment Terms: T/T

We accept T/T (Telegraphic Transfer) as the payment method for the ID4 Crozz. This is a safe and convenient option for both domestic and international customers.

Supply Ability: 10

The ID4 Crozz has a supply ability of 10 units per month. This ensures that we can meet the demand for our electric cars and provide timely delivery to our customers.

Cabin Structure: Integral Body

The ID4 Crozz has an integral body cabin structure, which means that the body and chassis are integrated into one piece. This provides superior strength, rigidity, and stability, ensuring a safe and comfortable ride for the driver and passengers.

Autopilot: Yes

The ID4 Crozz comes equipped with an autopilot feature, making it a truly intelligent driving experience. This feature allows the car to drive itself, making long journeys or heavy traffic situations less stressful for the driver.

Rear Window: Electric

The rear window of the ID4 Crozz is electric, making it easy to operate with just a push of a button. This adds to the convenience and modernity of the car, providing a seamless and enjoyable driving experience.

Size: 4592x1852x1629mm

The ID4 Crozz has a compact size of 4592x1852x1629mm, making it perfect for navigating through busy urban streets and fitting into tight parking spots. Despite its small size, the car has ample space for passengers and cargo, making it a practical choice for everyday use.

Condition: New

The ID4 Crozz is a brand new car, designed and manufactured using the latest technology and highest quality materials. This ensures that the car is in perfect condition and ready to provide you with a reliable and enjoyable driving experience for years to come.

Application and Scenarios

The ID4 Crozz is the perfect electric car for anyone looking to make a positive impact on the environment and embrace a smart and sustainable lifestyle. Whether you are a city dweller, a business owner, or an eco-conscious individual, the ID4 Crozz has a wide range of applications and scenarios for you to enjoy.

Intelligent Urban Life

The ID4 Crozz is designed for urban life, making it the ideal choice for city dwellers. Its compact size, advanced technology, and intelligent features make it easy to navigate through busy streets, find parking, and deal with heavy traffic situations. With the autopilot feature, the ID4 Crozz can even drive itself, allowing you to sit back, relax, and enjoy the ride.

Environmental Protection

The ID4 Crozz is a zero-emission car, meaning it produces no harmful pollutants that contribute to air pollution. By choosing the ID4 Crozz, you are making a significant contribution to protecting the environment and combating climate change. This makes it the perfect choice for individuals and businesses looking to reduce their carbon footprint and promote sustainability.

Smart Lifestyle

The ID4 Crozz is more than just a car, it's a lifestyle. With its sleek design, advanced technology, and eco-friendly features, the ID4 Crozz embodies a smart and modern lifestyle. By owning an ID4 Crozz, you are not only making a statement about your values and priorities, but you are also embracing a more sustainable and responsible way of living.

Eco-Tourism

The ID4 Crozz is the perfect car for eco-tourism. Its zero-emission and compact size make it ideal for exploring nature and going on adventures. With its long-lasting battery life, the ID4 Crozz can take you on long journeys without worrying about running out of power. So pack your bags, hop into your ID4 Crozz, and hit the roads for an unforgettable eco-tourism experience.

Corporate Fleet

The ID4 Crozz is a great addition to any corporate fleet. Its eco-friendly features and advanced technology make it a responsible and sustainable choice for businesses. By using the ID4 Crozz as a company car, you are not only reducing your carbon footprint, but you are also projecting a positive image to your customers and stakeholders.

Conclusion

The Volkswagen ID4 Crozz is a game-changing electric vehicle that combines superior design, advanced technology, and eco-friendliness to provide an exceptional driving experience. With its applications in intelligent urban life, environmental protection, smart lifestyle, eco-tourism, and corporate fleets, the ID4 Crozz is a versatile and practical choice for anyone looking to make a positive impact on the environment and embrace a smarter and more sustainable way of living.
