### Product Description

#### Product Description:

Electric EV Cars - Product Overview

Electric EV Cars is a revolutionary new line of electric vehicles that offers an eco-friendly and efficient mode of transportation. Our cars

Our Product

are designed to provide a seamless driving experience, while reducing carbon emissions and promoting sustainability.

Rear Window: Electric

One of the most prominent features of our Electric EV Cars is the rear window, which is powered by electricity. This not only adds to the overall sleek and modern design of the car, but also provides a clear and unobstructed view for the driver.

Cabin Structure: Integral Body

The cabin structure of our Electric EV Cars is built with an integral body, which means that the car body and frame are a single piece. This enhances the overall strength and stability of the car, providing a safer and smoother ride for our customers.

Sunroof: Sunroof

The sunroof in our Electric EV Cars allows for an open and airy feel, while also providing natural light into the cabin. It is designed to be both functional and stylish, adding to the overall aesthetic of the car.

Autopilot: Yes

Our Electric EV Cars are equipped with the latest autopilot technology, allowing for a more relaxed and stress-free driving experience. The car is able to safely navigate and control itself, making it easier for the driver to focus on other tasks or simply sit back and enjoy the ride.

Forward Shift Number: 5

The forward shift number of our Electric EV Cars is set at 5, providing a smooth and efficient transition between gears. This ensures a comfortable and responsive driving experience, while also improving fuel efficiency.

Choose Electric EV Cars for a greener and more efficient way of transportation. Experience the future of driving today!

## Products Description

Condition	New
Size	4872x1846x1481mm
Top Speed	180 Mph
Cabin Structure	Integral Body
Interior Color	Dark
Rear Window	Electric
EV Cars	Zero-Emission Cars
Zero-Emission Cars	Zero-Emission Cars

## Applications:

Electric EV Cars - BMW i3

Brand Name: BMW

The BMW brand is known for its luxury and high-performance vehicles. With the i3 model, BMW takes a step towards sustainable transportation.

Model Number: bmw i3

The BMW i3 is a fully electric compact car designed for urban environments. It offers a perfect balance of efficiency and high performance.

Place of Origin: Shenzhen

The BMW i3 is proudly made in Shenzhen, a city known for its innovative and advanced technology. This guarantees a high-quality product with the latest technology.

Minimum Order Quantity: 1

You can order just one BMW i3 and experience the future of electric cars. No need to commit to a large number, we trust that one drive will convince you.

Price: 22364-28047

The BMW i3 is competitively priced between 22364-28047, making it an affordable option for those looking to switch to an electric vehicle.

Packaging Details: Normal

The BMW i3 comes in a standard packaging, ensuring that it is delivered to you safely and securely.

Delivery Time: 15

With a delivery time of just 15 days, you won't have to wait long to start experiencing the future of electric cars with the BMW i3.

Payment Terms: T/T

We accept payment through T/T, making it convenient for you to purchase the BMW i3.

Supply Ability: 10

With a supply ability of 10, we can ensure that you receive your order in a timely manner and without any delays.

Cabin Structure: Integral Body

The BMW i3 has an integral body design, providing a spacious and comfortable cabin for both the driver and passengers.

Steering System: Electric

The electric steering system in the BMW i3 makes driving effortless and responsive, giving you a smooth and enjoyable ride.

Port: Khorgos

The BMW i3 is exported through the port of Khorgos, ensuring efficient and timely delivery to our customers.

Sunroof: Sunroof

The BMW i3 comes with a sunroof, allowing you to enjoy the beautiful views and fresh air while driving.

Top Speed: 180 Mph

The BMW i3 has a top speed of 180 mph, showing that electric cars can also be high-performance vehicles.

Electric Drive Cars

The BMW i3 is a prime example of an electric drive car, with zero emissions and a sustainable alternative to traditional gasoline vehicles.

Electric Vehicle Cars

The BMW i3 is an electric vehicle car, powered by advanced electric technology for a clean and efficient drive.

Zero-Emission Cars

With zero emissions, the BMW i3 is a perfect choice for those looking to reduce their carbon footprint and contribute to a cleaner environment.

Sustainable Transportation

The BMW i3 promotes sustainable transportation, reducing our reliance on fossil fuels and helping to create a greener future.

High Performance

Don't let the electric drive fool you, the BMW i3 is a high-performance vehicle designed for a thrilling and exhilarating driving experience.

Eco-Friendly

With its zero emissions and use of sustainable materials, the BMW i3 is truly an eco-friendly car that promotes a greener lifestyle.

Convenience

The BMW i3 makes charging easy with its convenient charging options, allowing you to charge at home, work, or at public charging stations.

Intelligent Technology

The BMW i3 is equipped with intelligent technology that enhances the driving experience, making it smooth, efficient, and safe.

Choose the BMW i3 and join the future of electric EV cars today!
