BYD Used Cars - Product Overview

Introducing the 2024 BYD Sea Lion 07

Get ready to experience the thrill of driving with the 2024 BYD Sea Lion 07. This medium-sized vehicle combines style, performance, and sustainability to give you the ultimate driving experience. With its advanced features and powerful engine, the BYD Sea Lion 07 is the perfect choice for those who want to make a statement on the road.

Level: Medium Vehicles

Fast Charge Time: 0.75 Hour

Engine Capacity: < 4L

Battery Type: Lithium Iron Phosphate Battery

Rear Window: Electric

The 2024 BYD Sea Lion 07 is designed to give you a seamless driving experience. Its fast charge time of just 0.75 hour means you can get back on the road in no time, without worrying about long charging times. With its engine capacity of less than 4L, the Sea Lion 07 is perfect for city driving and is also fuel-efficient, saving you money on gas.

The BYD Sea Lion 07 is equipped with a powerful lithium iron phosphate battery, which not only provides a longer driving range but also has a longer lifespan compared to traditional batteries. This makes it a more sustainable option for those who are conscious about their carbon footprint.

One of the standout features of the BYD Sea Lion 07 is its electric rear window. With just a push of a button, you can easily open or close the rear window, providing added convenience and comfort for both the driver and passengers.

Don't miss your chance to own the 2024 BYD Sea Lion 07, a car that combines luxury, performance, and sustainability. With its sleek design and advanced features, the Sea Lion 07 is sure to turn heads wherever you go.

Get your hands on the BYD Sea Lion 07 today and experience the future of driving.

Packing and Shipping:

BYD Used Cars

Packaging and Shipping

At BYD, we take great care in packaging and shipping our used cars to ensure they arrive at their destination in pristine condition. Our packaging process involves the use of high-quality materials and careful handling to protect the car during transportation.

Packaging Process

First, our team thoroughly inspects the car to ensure it meets our standards for quality and safety. Any necessary repairs or maintenance are completed before the car is packaged.

Next, the car is carefully washed and cleaned to remove any dirt or debris. We then use specialized packaging materials, such as bubble wrap, foam sheets, and cardboard boxes, to protect the car's exterior and interior during transportation.

Finally, the car is securely loaded onto a transport vehicle for shipping. Our team pays close attention to weight distribution and securing the car to prevent any damage during transit.

Shipping Options

We offer a variety of shipping options to meet the needs of our customers. These include:

Open Transport: This is the most common and cost-effective option for shipping a used car. The car is loaded onto a multi-car carrier and transported to its destination.

Enclosed Transport: For added protection, we also offer enclosed transport where the car is shipped in a covered trailer.

International Shipping: We can ship our used cars to customers around the world, utilizing both air and sea transportation.

Our team will work with you to determine the best shipping option for your specific needs and budget.

Delivery Process

Once the car has reached its destination, our team will carefully unload and inspect it for any damage that may have occurred during transit. We also offer delivery services to bring the car directly to your doorstep.

With our careful packaging and shipping process, you can trust that your BYD used car will arrive in excellent condition, ready for you to enjoy.
