## Product Description

### Product Description:

Electric EV Cars - The Future of Transportation

The Electric EV Cars is a revolutionary product that is set to change the way we think about transportation. It is a zero-emission car that runs entirely on electricity, making it the perfect choice for those looking for an environmentally friendly and sustainable option for their daily commute.

Steering System: Electric

The Electric EV Cars is equipped with an advanced electric steering system that provides a smooth and effortless driving experience. This system is powered by the electric motor, which makes the car extremely efficient and responsive.

Size: 4863x1890x1515mm

The Electric EV Cars has a sleek and compact design, with dimensions of 4863x1890x1515mm. This makes it the perfect size for navigating through busy city streets, while still providing enough space for a comfortable ride.

Battery Capacity: 59.5KWh

The heart of the Electric EV Cars is its powerful battery pack with a capacity of 59.5KWh. This enables the car to travel long distances on a single charge, making it a reliable and convenient choice for daily use.

Sunroof: Sunroof

Experience the beauty of nature while driving the Electric EV Cars with its panoramic sunroof. The sunroof allows for natural light to enter the car, creating a spacious and airy atmosphere for both the driver and passengers.

Rear Window: Electric

Gone are the days of manually rolling down the rear window. The Electric EV Cars features an electric rear window, making it easier and more convenient to adjust the ventilation and communicate with other drivers.

Overall, the Electric EV Cars is a game-changer in the world of transportation. With its advanced technology and eco-friendly features, it is the perfect choice for those looking for an efficient, sustainable, and stylish mode of transportation.

Sunroof	Sunroof	
Electric Powered Cars	EV Cars	Electric Motor Cars

## Applications:

Electric EV Cars - Aion S

Welcome to the future of transportation with Aion S - the ultimate electric drive car that combines cutting-edge technology, sleek design, and eco-friendliness. Developed by Aion, a leading brand in electric vehicles, Aion S is revolutionizing the way we travel and shaping a sustainable future for generations to come.

Product Overview

Aion S is a battery-powered car that runs on electricity, making it an ideal choice for those who are looking for green cars that are

environmentally friendly and energy efficient. With a top speed of 163 mph, Aion S offers a thrilling driving experience like no other. The forward shift number of 5 and tire size of R19 further enhance its performance, making it the perfect combination of power and agility.

Application Scenes

Aion S is a versatile car that can be used in various scenarios. Whether you are commuting to work, going on a road trip, or simply running errands, Aion S can handle it all. Its compact size and efficient battery make it perfect for navigating through city streets, while its powerful engine and long-range capabilities make it the ideal choice for long journeys. Additionally, Aion S is equipped with an autopilot feature, making it a safe and convenient option for daily use.

Eco-Friendly and Sustainable

Aion S is more than just a car - it is a statement of sustainability and environmental responsibility. With zero emissions, Aion S helps reduce carbon footprint and promote a cleaner and greener world. By choosing Aion S, you are not only investing in a high-performance vehicle but also contributing to a better future for our planet.

Production and Delivery

Aion S is proudly made in Shenzhen, China, where it is manufactured using the latest technology and highest quality materials. With a minimum order quantity of 1, Aion S is available for purchase by individuals and businesses alike. The price ranges from 9638 to 12035 depending on the model and specifications. Aion S is packaged carefully to ensure its safety during transportation and has a delivery time of 15 days. Payment can be made through T/T, and Aion S has a supply ability of 10 cars per month.

Experience the Future Today

Aion S is not just a car, but a lifestyle. With its sleek design, advanced features, and eco-friendly nature, Aion S is the perfect choice for those who want to experience the future of transportation today. So why wait? Join the electric revolution and drive towards a more sustainable future with Aion S.
