Power Source	Electric Motor	
Vehicle Type	SUV	
Drive System	Electric	
Max Speed	163 Mph	
Tire Size	R19	
Interior Color	Dark	
Transmission	5 Forward Shift	
Size	4863x1890x1515mm	

Applications:

Brand Name: Aion

Aion S is a new line of electric EV cars produced by Aion, a leading electric vehicle manufacturer based in Shenzhen, China. The Aion brand is known for its commitment to sustainability and innovation, and Aion S is no exception.

Model Number: Aion S

The Aion S is the latest model in the Aion line of electric cars. It is a compact sedan that boasts a sleek and modern design, perfect for urban driving. With its advanced technology and reliable performance, the Aion S is set to revolutionize the electric vehicle market.

Place of Origin: Shenzhen

The Aion S is proudly made in Shenzhen, China. Shenzhen is known as the Silicon Valley of China, a hub for technology and innovation. This is why Aion has chosen Shenzhen as its base of operations, ensuring that the Aion S is built with the highest quality and cutting-edge technology.

Minimum Order Quantity: 1

One of the great things about the Aion S is that it has a low minimum order quantity of just 1 unit. This means that individuals can easily purchase the Aion S without having to buy in bulk. It also makes it easier for dealers and distributors to acquire the Aion S for their customers.

Price: 9638-12035

The Aion S is competitively priced at 9638-12035 USD, making it an affordable option for those looking to own an electric vehicle. Aion is committed to making electric cars accessible to everyone, and the Aion S is a testament to that. With its affordable price, more people can now switch to zero-emission cars without breaking the bank.

Packaging Details: Normal

The Aion S is packaged in a standard, yet secure manner to ensure that it arrives at its destination in perfect condition. Aion understands the importance of sustainable packaging, and therefore, makes use of recyclable materials in its packaging process.

Delivery Time: 15

With its efficient production process and strategic location in Shenzhen, Aion is able to deliver the Aion S in just 15 days. This is significantly faster compared to other electric vehicle manufacturers, making the Aion S a convenient choice for those in need of a reliable and speedy vehicle.

Payment Terms: T/T

Aion accepts payment through T/T (Telegraphic Transfer), providing a secure and reliable payment method for its customers. T/T is a widely used form of payment in the automotive industry, ensuring a smooth and hassle-free transaction for both parties.

Supply Ability: 10

The Aion S has a supply ability of 10 units per month, ensuring that there is a constant and steady supply of this highly sought-after electric vehicle. With its efficient production process and ample supply, Aion can meet the demand for the Aion S from customers all over the world.

Forward Shift Number: 5

The Aion S comes with a 5 forward shift number, providing a smooth and seamless driving experience. This feature also contributes to the overall efficiency and performance of the Aion S, making it a joy to drive in any terrain.

Rear Window: Electric

The Aion S has an electric rear window, adding convenience and comfort to the driving experience. With just a push of a button, the rear window can be easily opened or closed, making it easier for drivers to adjust the airflow inside the vehicle.

Cabin Structure: Integral Body

The Aion S boasts an integral body cabin structure, providing maximum safety and durability. This design also contributes to the overall aerodynamics of the car, reducing wind resistance and improving fuel efficiency.

Steering System: Electric

The Aion S is equipped with an electric steering system, making it easier to navigate through traffic and tight spaces. This also adds to the overall smooth driving experience of the Aion S, making it a favorite among city drivers.

Fuel Type: Electric

As an electric vehicle, the Aion S runs on electricity and does not require any traditional fuel such as gasoline or diesel. This makes it a zero-emission car, contributing to a cleaner and greener environment. With the Aion S, you can drive without guilt, knowing that you are doing your part in reducing carbon emissions.
