## Product Description

### Product Description:

The Mercedes Benz EQS is a state-of-the-art electric vehicle that redefines luxury and comfort in the automotive industry. It showcases advanced technologies and innovative features, such as an impressive driving range of up to 770 kilometers on a single charge, making it a prime option for environmentally conscious drivers seeking practicality and luxurious performance. The EQS is part of the EQ family of vehicles from Mercedes, signifying its strong commitment to a sustainable and responsible future.

Beyond its impressive range, the EQS contains advanced technological features, such as an artificial intelligence (AI) assistant that learns the habits and preferences of its driver. This system can adjust the car settings, such as the air conditioning and seat positioning, based on the driver's previous choices, creating a personalized driving experience.

The EQS is also equipped with advanced safety features, such as a 360-degree camera system and driver assistance features that help drivers navigate and stay safe on the road. Its exterior design is sleek and aerodynamic, delivering an aesthetically pleasing appearance along with excellent performance.

## Products Description

### Features:

The Mercedes Benz EQS is a high-end luxury electric vehicle that sets a new standard for EVs in terms of luxury and performance. It features a stylish and futuristic exterior design with an aerodynamic body that reduces drag and enhances its range.

Inside the car, the EQS is packed with state-of-the-art technology and high-quality materials used throughout. The interior includes a massive 56-inch curved OLED screen that spans across the dashboard, providing drivers and passengers with a futuristic and immersive user experience.

Beneath the surface, the EQS is built on a dedicated EV platform that optimizes handling and ride comfort while delivering rapid acceleration and a silent driving experience. The car is powered by a 107.8 kilowatt-hour battery that provides a range of up to 478 miles on a single charge.

**Technical Parameters:**

The Mercedes Benz EQS is a brand new electric vehicle (EV) that has recently been introduced by the iconic German automaker. This luxury sedan is a sleek and stylish option for EV buyers who are looking for a high-end, eco-friendly vehicle.

The EQS boasts impressive performance and range, with an estimated range of up to 770 kilometers on a single charge. It also has a powerful electric motor that can produce up to 516 horsepower and accelerate from 0 to 100 kilometers per hour in just 4.3 seconds. In addition to its impressive performance, the EQS is also loaded with high-tech features and amenities. Its interior is spacious and luxurious, with premium materials and advanced infotainment systems. The vehicle also comes equipped with a range of safety and driver assistance features, as well as cutting-edge autonomous driving technology.

Overall, the Mercedes Benz EQS is an exceptional choice for those who value performance, luxury, and sustainability in their vehicles. It is a testament to the innovative spirit and commitment to excellence that has made Mercedes-Benz a leader in the automotive industry for over a century.

### Applications:

One of the best things about the Mercedes Benz EQS is its versatility. It can be used for a variety of occasions and scenarios, making it a great investment for any driver. Whether you need a car for your daily commute, weekend getaways, or family road trips, the EQS is built to accommodate all your needs and more.

The Mercedes Benz EQS has a minimum order quantity of one, which means that it is accessible to a wide range of consumers. The price range for this car is between 22352-27635, depending on the model and specifications that you choose. The packaging details for this car are normal, and it comes with a delivery time of 15 days.

In terms of payment terms, the Mercedes Benz EQS can be purchased through T/T, and it has a supply ability of 10 units. The interior color of this car is dark, which is perfect for individuals who prefer a sleek and modern look. The car is also in new condition, which means that it is in top-notch condition.

The Mercedes Benz EQS is a great investment for individuals who want to make a difference in the environment and support sustainable practices. With its electric steering system, this car is built to provide a smooth and efficient driving experience. It is also perfect for individuals who want to make a statement and stand out with their car choice.

Overall, the Mercedes Benz EQS is a great option for anyone who is in the market for an electric powered car. With its versatility, eco-friendliness, and top-notch performance, it is a great investment for individuals who care about the environment and want to make a difference.

Port: Khorgos

### Packing and Shipping:

Product Packaging:

The electric EV cars will be carefully packaged to ensure their safety during transportation. The cars will be placed on a sturdy pallet and secured with straps to prevent any movement. The pallet will be covered with a protective material to prevent any scratches or damage during shipping.

Shipping:

We offer free shipping for the electric EV cars within the United States. The cars will be shipped via a reliable and trusted carrier that specializes in handling large and heavy items. The estimated delivery time is 3-5 business days, depending on the destination. We will provide you with a tracking number once the car has been shipped so you can keep track of its progress.
