## Product Description

### Product Description:

BMW has unveiled its new all-electric SUV, the BMW iX3. The vehicle features a 286 horsepower electric motor that provides a driving range of up to 459 kilometres (285 miles) on a single charge. BMW designed the iX3 to have a sleek, modern look with blue accents and a special kidney grille.

The iX3 also includes advanced features such as a driver assistance system, remote software updates, and voice-activated controls. The vehicle can be charged using either a standard household outlet or a public charging station. BMW also offers a range of charging solutions for home installation.

The iX3 represents a major step forward for BMW in its goal of electrifying its entire line-up. With its impressive driving range and sleek design, the iX3 is sure to be a popular choice among electric vehicle enthusiasts and anyone looking for a stylish, high-performance SUV.

### Features:

The BMW iX3 is a luxury electric vehicle manufactured by BMW and it is the first BMW model to feature an all-electric powertrain. The iX3 is powered by a 286 horsepower electric motor that delivers a range of up to 285 miles on a single charge. The vehicle's battery can be charged from 0% to 80% in just 34 minutes using a DC fast charger.

The exterior of the BMW iX3 boasts a sleek and modern design, with a distinctive grille and sleek lines that give the vehicle a sporty look. The interior is equally luxurious, with premium materials and advanced technology throughout. The iX3 is equipped with BMW's latest infotainment system, which includes a large touch screen display, voice commands, and a variety of connected services.

In addition to its impressive performance and design, the BMW iX3 is also very practical. It has a spacious cabin and trunk, making it a great choice for families or those who need to haul cargo. The vehicle also features a host of safety features, including adaptive cruise control, lane departure warning, and automatic emergency braking.

## Technical Parameters:

Introduction to the BMW iX3

The BMW iX3 is an all-electric compact luxury SUV produced by German automaker BMW. It was introduced in 2020 as the company's first fully electric SUV and is part of BMW's "i" sub-brand.

The iX3 boasts a range of up to 460 kilometers on a single charge (WLTP cycle) thanks to its 80 kWh battery pack. It can go from 0-100 km/h in just 6.8 seconds and has a top speed of 180 km/h. The electric motor produces 286 horsepower (210 kW) and 295 lb-ft (400 Nm) of torque.

The exterior of the iX3 is visually similar to the traditional BMW X3, with some distinguishable design elements such as blue accents. The interior is modern and well-equipped, with features such as a 12.3-inch infotainment display and digital instrument cluster.

Overall, the BMW iX3 is a great option for those who want a luxurious electric SUV with a decent range and impressive performance. It offers a high level of comfort and advanced technology, while also contributing to a more sustainable future by producing zero emissions during its operation.

### Applications:

The BMW iX3 is perfect for those who want to reduce their carbon footprint and enjoy a smooth and quiet driving experience. It has a top speed of 180 mph and uses an Electric Motor, which provides excellent acceleration and power. The car has a tire size of R19, which provides excellent grip and stability on the road.

The Integral Body Cabin Structure of the BMW iX3 is designed to provide maximum comfort and safety to its passengers. The car does not have a sunroof, but it has other features such as air conditioning, power windows, and a sound system that make the ride enjoyable. The car is suitable for commuting, long drives, and road trips. It is also suitable for families, as it has ample space for passengers and luggage.

The BMW iX3 is an excellent choice for those who want to experience the benefits of Electric Drive Cars. It is environmentally friendly, has a top speed of 180 mph, and is suitable for various occasions and scenarios. Whether you are commuting to work or going on a road trip, the BMW iX3 will provide a smooth and enjoyable driving experience.

### Packing and Shipping:

#### Product Packaging:

The Electric EV Cars will be carefully packaged in a sturdy, eco-friendly cardboard box to ensure safe transportation. The box will be sealed with durable packing tape to prevent any damage to the product during shipping. Inside the box, the car will be securely placed in a foam insert to prevent it from moving around during transit.

#### Shipping:

Our company uses reliable shipping carriers to ensure that the Electric EV Cars are delivered to our customers in a timely and efficient manner. Shipping times may vary depending on the destination, but we strive to get the product to the customer as soon as possible. Customers will receive a tracking number once the product has shipped so they can track their package and know exactly when to expect delivery.
