

## 2024 BMW EV Car Electric Cars BMW IX3 New Energy Vehicles

Our Product Introduction

for more products please visit us on [evcar.cn](http://evcar.cn)

### Basic Information

- Place of Origin: Shenzhen
- Brand Name: BMW
- Model Number: bmw ix3
- Minimum Order Quantity: 1
- Price: 22352-27635
- Packaging Details: Normal
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 10

### Product Specification

- Cabin Structure: Integral Body
- Fuel Type: Electirc
- Port: Khorgos
- Type: SUV
- Interior Color: Dark
- Forward Shift Number: 5
- Size: 4746x1891x1683mm
- Tire Size: R19
- Highlight: BMW IX3 EV Car, BMW IX3 Electric Cars, BMW IX3 New Energy Vehicles

## Product Description

### Product Description:

The BMW iX3 is a fully electric SUV that is a part of BMW's i sub-brand. This vehicle is set to be the first electric vehicle that BMW produces with a fifth-generation eDrive system. The iX3 will be manufactured in China and exported to other regions, including Europe and North America.

BMW has promised that the iX3 will have a range of up to 440 km (273 miles) on a single charge. The vehicle will also be capable of fast charging, which will allow for up to 80% charge in just 34 minutes. The iX3 will utilize a 210-kilowatt electric motor that is expected to produce 286 horsepower and 295 lb-ft of torque.

The iX3 is designed with aerodynamics in mind, featuring a sleek and sporty look. The vehicle's front grille has also been redesigned for better airflow and improved efficiency. The iX3 will also be equipped with BMW's latest driver assistance and safety features, such as lane departure warning, pedestrian detection, and automatic emergency braking.

The iX3 is a significant step forward for BMW's electrification efforts and allows the luxury car giant to compete in the increasingly crowded electric SUV market. With its impressive range, fast-charging capabilities, and sleek design, the iX3 is sure to impress electric vehicle enthusiasts and provide stiff competition for other electric SUVs.

### Features:

#### About BMW iX3

The BMW iX3 is a fully electric compact luxury SUV that was first introduced in 2020. It is the first electric SUV from BMW and is based on the BMW X3, one of the most popular SUVs in the brand's lineup. While it shares many design characteristics with the X3, the iX3 features some distinct styling elements and, of course, an all-electric powertrain.

The iX3 is powered by a 80 kWh battery that provides a range of over 260 miles on a single charge, according to WLTP (Worldwide harmonized Light vehicles Test Procedure) test cycle. It features a single electric motor that generates 286 horsepower and 295 pound-feet of torque, enabling it to accelerate from 0 to 60 mph in just 6.8 seconds.

Inside, the iX3 boasts a modern and luxurious cabin, with a large infotainment display, digital instrument cluster, and premium materials throughout. It also features advanced driver assistance systems, including lane departure warnings, adaptive cruise control, and automatic emergency braking.

The BMW iX3 is a great option for anyone looking for an electric luxury SUV that offers impressive performance, range, and features. It's an exciting addition to the BMW lineup and a strong competitor in the growing electric SUV market.

## Technical Parameters:

Introducing the BMW iX3

The BMW iX3 is an all-electric SUV that combines the luxury and performance of a BMW with the efficiency and sustainability of electric power. Designed as part of BMW's iNext program, the iX3 represents the latest in EV technology and design, making it a highly sought-after vehicle for eco-minded individuals who also want to enjoy the comfort and thrill of driving a BMW.

Efficient and Powerful

Using BMW's fifth-generation eDrive technology, the iX3 can provide up to 286 horsepower and 295 lb-ft of torque, giving it the power and performance expected from a BMW. Meanwhile, its 80 kWh battery pack will provide a range of up to 286 miles, making it perfect for everyday use and long-distance journeys alike. The battery can be recharged up to 80% in just 34 minutes when using a DC fast charger.

Luxurious Design and Features

The iX3 boasts a range of luxury features, including a panoramic glass roof, heated front seats, and high-quality leather seats. The vehicle also includes advanced safety features such as lane-departure warning and collision mitigation. The iX3's design incorporates BMW's iconic kidney grille, but with a twist - the grille is closed off, which improves the vehicle's aerodynamics and efficiency. Overall, the BMW iX3 is a vehicle that combines luxury, performance, and sustainability in a single package. Ideal for individuals who want a premium driving experience without compromising on their environmental values.

### Applications:

The BMW ix3 is perfect for city driving. It is a compact car that is easy to park and maneuver in tight spaces. It is also a good choice for people who need to commute long distances. The car has a top speed of 180 mph, which makes it a great vehicle for long road trips. The car has an integral body structure, which means that the cabin and body are a single unit. This makes the car more rigid and improves the overall driving experience.

The BMW ix3 has an electric rear window, which is a convenient feature for people who need to load and unload cargo. The car also has a forward shift number of 5, which means that it can accelerate quickly and smoothly. The car is available at a price range of 22352-27635 and can be ordered in quantities of one or more.

The BMW ix3 is a great choice for people who want to reduce their carbon footprint and save money on fuel costs. The car is powered by an electric motor, which means that it produces zero emissions. The car is also very quiet and produces no noise pollution.

The BMW ix3 is a reliable car that is built to last. The car comes with a normal packaging detail and has a delivery time of 15 days. The car can be paid for using T/T and has a supply ability of 10. The car can be shipped from the port of Khorgos.

Overall, the BMW ix3 is a great choice for people who are looking for an electric car that is reliable, efficient, and easy to drive. Whether you need a car for city driving or long road trips, the BMW ix3 is a great choice.
