

BMW IX1 EDrive 25L 510Km Electric Cars 5-seat SUV New Energy Vehicles

Our Product Introduction

for more products please visit us on evcar.cn

Basic Information

- Place of Origin: Shenzhen
- Brand Name: BMW
- Model Number: BMW IX1
- Minimum Order Quantity: 1
- Price: 22360-31250
- Packaging Details: Normal
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 10

Product Specification

- Exterior Rearview Mirror: Electric Adjustment
- Availability: Currently Available
- Battery Type: Lithium Iron Phosphate Battery
- Transmission: Automatic
- Doors: 4
- Air Conditioner: Automatic
- Fast Charging Time: 0.53hour
- Gear Box: Automatic
- Highlight: **BMW IX1 EDrive Electric Cars, 510Km 5-seat SUV, 5-seat SUV New Energy Vehicles**

Product Description:

Introducing the BMW iX1 Electric Car

The BMW iX1 Electric Car is the latest addition to the BMW i series lineup, offering a sustainable and eco-friendly driving experience to its users. This car is equipped with the latest technology and advancements in electric car manufacturing, making it a smart choice for environmentally conscious drivers.

The iX1 Electric Car model promises to deliver a powerful driving experience with its electric motor and advanced battery technology. This car has a driving range of up to 460 kilometers on a single charge, making it a practical and efficient option for both city and long-distance driving.

The BMW iX1 Electric Car features a sleek and modern design, with a spacious interior and advanced features that cater to the needs of modern drivers. The car's dashboard is equipped with a high-definition touchscreen display that allows drivers to access various functions, such as media and navigation controls, on the go.

Beyond its cutting-edge design and features, the BMW iX1 Electric Car represents BMW's commitment to sustainable and eco-friendly transportation. By choosing this car, drivers can participate in a global effort to reduce carbon emissions and make the world a greener place.

Products Description

Features:

The BMW iX1 electric car is a new addition to the BMW i cars range, and it illustrates the car manufacturer's commitment to sustainable transportation. The iX1 is an all-electric vehicle that builds on the success of the BMW X1, but with a new powertrain.

The iX1 is built with sustainable materials and features an aerodynamic design that maximizes energy efficiency. It has a range of up to 300 miles on a single charge, making it suitable for long distances. The car is also equipped with advanced tech features that provide an exceptional driving experience.

The BMW iX1's electric motor delivers excellent acceleration and peak performance when driving on the highway. The iX1 also features a regenerative braking system that captures energy from braking and adds it to the battery's charge. This feature helps to extend the car's range.

The BMW iX1 electric car is a stylish and eco-friendly choice for anyone who is looking for a high-performance, all-electric vehicle that has a long range. With the BMW iX1, you can enjoy a driving experience that is both sustainable and luxurious.

Technical Parameters:

BMW has announced the launch of its new electric vehicle, the BMW iX1. As an all-electric version of the popular X1 compact SUV, the iX1 is set to make waves in the market. With its sleek design and impressive range, this car is sure to appeal to a wide variety of drivers looking for a more sustainable option.

The iX1 boasts a fully electric powertrain, which means it emits zero emissions while driving. Additionally, the car has been designed with sustainability in mind, featuring recyclable materials and eco-friendly manufacturing processes. This dedication to reducing carbon emissions is a key part of BMW's commitment to a more sustainable future.

The iX1's impressive range is due in part to its high-capacity battery, which allows drivers to travel up to 285 miles on a single charge. This makes it perfect for long road trips and daily commutes alike. Not to mention, the iX1's electric motor provides a smooth and quiet driving experience, making it a pleasure to drive in any situation.

If you're considering purchasing an electric car, the BMW iX1 is definitely worth a look. Its combination of modern design, impressive range, and sustainability make it a top contender in the electric car market.

Applications:

One of the key advantages of the BWM iX1 is its Lithium Iron Phosphate Battery, which provides a long-lasting and efficient power source. This battery allows the SUV to travel long distances without the need for frequent charging. Additionally, the fast charging time of just 0.53 hour makes it easy to quickly charge the battery when needed.

The BWM iX1 is also equipped with an electric adjustment exterior rearview mirror that makes it easy to adjust the mirror without having to manually move it. This feature is especially useful for drivers who frequently change lanes or need to adjust their mirrors for different driving scenarios.

The engine type of the BWM iX1 is naturally aspirated, which provides a smooth and efficient driving experience. The air conditioner is automatic, which means that passengers can enjoy a comfortable temperature without having to manually adjust the settings.

The BWM iX1 is a high-quality product that is made in Shenzhen. It has a minimum order quantity of 1 and is available at a price range of 22360-31250. The packaging details are normal and the delivery time is 15 days. Payment terms are T/T and the supply ability is 10.

In conclusion, the BWM iX1 is an excellent choice for anyone who is looking for a reliable and eco-friendly SUV. It is suitable for a variety of occasions and scenarios and is equipped with features that make driving more comfortable and convenient. If you are in the market for a high-quality SUV, consider the BWM iX1.
