Product Description

Product Description:

The **Mercedes Benz EQC 400** is a luxurious electric car that offers impressive performance and features. It is an environmentally conscious choice for those who want to reduce their carbon footprint without sacrificing quality and style.

This car is equipped with a powerful electric motor that delivers instant torque, allowing you to go from **0 to 60 miles per hour in just over 5 seconds**. It also has a range of over 200 miles on a single charge, making it a practical option for daily use or long trips.

In addition to its impressive performance, the Mercedes Benz EQC 400 is packed with advanced features that make driving more comfortable and convenient. It has a spacious and stylish interior with premium materials and advanced technology, including a **10.25-inch touchscreen infotainment system** and a **voice-activated navigation system**.

If you're looking for a luxurious and eco-friendly car that offers impressive performance and features, the **Mercedes Benz EQC 400** is an excellent choice.

Products Description

Features:

The Mercedes Benz EQC 400 is an electric car that represents the future of automotives. With its smooth design and advanced

technology, this vehicle is sure to revolutionize the way we think about cars.

As an electric car, the EQC 400 is environmentally friendly and emissions-free. This means that you can drive it without feeling guilty about your impact on the planet. And with its impressive range of up to 280 miles per charge, you can go further than ever before without needing to stop for a refill.

But the EQC 400 isn't just about being eco-friendly. It's also a luxurious and comfortable ride that's designed to give you the best driving experience possible. From its advanced safety features to its high-tech entertainment system, this car has everything you need to feel confident, connected, and at ease on the road.

Technical Parameters:

The **Mercedes-Benz EQC 400 Electric Car** is a state-of-the-art all-electric vehicle that is designed to provide a unique and exhilarating driving experience. This vehicle is the perfect blend of luxury, performance, and sustainability, making it an excellent choice for environmentally-conscious consumers who do not want to sacrifice style or performance.

One of the key features of the *Mercedes-Benz EQC 400* is its powerful electric motor, which is capable of producing up to 402 horsepower and 561 lb-ft of torque. This means that the EQC 400 can go from 0 to 60 mph in just 4.8 seconds, making it one of the fastest electric vehicles on the market.

In addition to its impressive performance, the EQC 400 also comes equipped with a host of advanced technology features, such as a large touchscreen display, voice control, and wireless charging. The vehicle also includes a host of safety features, such as adaptive cruise control, lane departure warning, and automatic emergency braking, making it one of the safest vehicles on the road today.

Overall, the **Mercedes-Benz EQC 400 Electric Car** is a cutting-edge vehicle that is sure to turn heads wherever you go. With its sleek and modern design, powerful performance, and advanced technology features, there is no doubt that the EQC 400 is the perfect choice for anyone looking for a luxury electric vehicle that doesn't skimp on style or power.

Applications:

Making a foray into the electric vehicle market, Mercedes-Benz has introduced the EQC 400, an all-electric sports utility vehicle.

The EQC 400 aims to offer drivers the same luxury, comfort, and performance that the brand is known for, combined with a more sustainable and eco-friendly propulsion system.

Mercedes-Benz put particular emphasis on the car's design, which was created to be both aerodynamic and a visual representation of the cutting-edge electric technology under the hood.

The EQC 400 has a range of up to 450 km on one charge, ensuring that it is not just a practical choice, but also a convenient one.

Customization:

The Mercedes Benz EQC model is available with a top speed of 180mph and an interior color of Dark. The car is powered by electricity and has a size of 4774x1890x1622mm. It is manufactured in Shenzhen, China, and has a minimum order quantity of 1. The price for the car ranges from 31200 to 44680 USD, depending on the features selected.

Our packaging details are normal, and the delivery time for your customized EV car is 15 days from the date of order.

Payment terms are T/T, and the supply ability is 10 cars at a time. The car is available to be shipped from the port of Shenzhen.
