Basic Information

- Place of Origin: Shenzhen
- Brand Name: Deepal
- Model Number: SL03
- Minimum Order Quantity: 1
- Price: 11230-13320
- Packaging Details: Normal
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 10

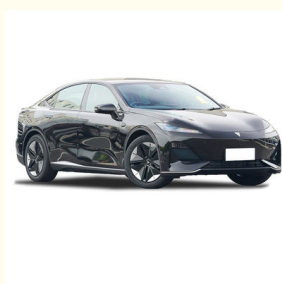

Product Specification

- Cabin Structure: Integral Body
- Type: SUV
- Condition: New
- Size: 4820x1890x1480mm
- Top Speed: 170Mph
- Autopilot: Yes
- Tire Size: R19
- Port: Shenzhen
- Highlight: 5 Seats Changan Deepal SL03,
New Energy Vehicles Changan Deepal SL03,
Changan Deepal SL03 Electric EV Car

Product Description

Product Description:

New Energy Vehicles (NEVs) are vehicles that utilize non-traditional engines or fuel systems, presenting an alternative to the traditional, fossil-fuel-powered cars that have dominated the automotive industry for over a century. One type of NEV is a Plug-in Hybrid (PHEV), which is a vehicle that can be charged through an external power source and use both electric and gasoline power to run. PHEVs are becoming increasingly popular due to their improved fuel efficiency and reduced environmental impact.

Changan Deepal SL03 Electric EV Car is a particular type of NEV that belongs to the PHEV category. It has five seats and is equipped with advanced technology that allows the vehicle to run on an electric motor as well as a gasoline engine. The battery of the Changan Deepal SL03 can be charged externally, and it boasts a range of 50 kilometers on electric-only power. Additionally, the car has a top speed of 120 km/h and a fuel consumption rate of just 2.3 L/100 km.

The Changan Deepal SL03 Electric EV Car represents a significant step forward in sustainable transportation. With its reduced reliance on fossil fuels and low emissions, it offers a more environmentally friendly transportation option. Moreover, it is well-equipped with various safety features that make it a reliable and safe car to drive. Overall, the Changan Deepal SL03 Electric EV Car is an impressive example of the potential that NEVs, specifically PHEVs, have in transforming the automotive industry and promoting the adoption of cleaner, greener modes of transportation.

New Energy Vehicles: Changan Deepal SL03 Electric EV Car

Changan is a leader in the global automotive industry and they recently launched their newest model, the Deepal SL03 Electric EV Car. This is a new energy vehicle with 5 seats and a plug-in hybrid system, making it eco-friendly and efficient.

The Deepal SL03 is powered by a lithium-ion battery and has a maximum range of 300 km on a single charge. It can be fully charged in just 4 hours using a standard charging cable, or in 1 hour using a fast charging station. This makes it highly convenient for daily use and long-distance journeys.

Not only is this car environmentally friendly, but it also provides a comfortable and stylish ride. It has a sleek design with a spacious interior and advanced technologies, such as a 10.1 inch touch screen, voice recognition system, and adaptive cruise control. These features make it a perfect blend of elegance and innovation.

The Deepal SL03 Electric EV Car is a great option for those who are looking for a reliable and eco-conscious vehicle that offers both style and technology. With its hybrid system and advanced features, it is a step towards a greener future for the automotive industry.

Technical Parameters:

Changan Deepal SL03 Electric EV Car is a 5-seats plug-in hybrid vehicle that belongs to the category of new energy vehicles. This car is among the latest models manufactured by Changan Automobile Company, a renowned car producer based in China.

The Changan Deepal SL03 Electric EV Car is a perfect representation of the company's vision for the future of the automobile industry. The vehicle operates on electricity and combines with its plug-in hybrid feature that significantly improves its performance and efficiency. The car's hybrid feature is an excellent technological achievement that enables it to utilize the strengths of both electricity and gasoline. The battery can store electric energy that powers the electric motor that is responsible for the car's movement while the gasoline engine provides the extra power needed and simultaneously recharges the battery.

The Changan Deepal SL03 Electric EV Car is an eco-friendly vehicle that produces zero emissions, and its operation is environmentally conscious. The car's design is stylish and modern, with comfortable seating arrangements and a spacious interior. If you are planning to buy a new energy vehicle, the Changan Deepal SL03 Electric EV Car would be an excellent choice.

Changan Deepal SL03 Electric EV Car is a 5-seats plug-in hybrid vehicle that belongs to the category of new energy vehicles. This car is among the latest models manufactured by *Changan Automobile Company*, a renowned car producer based in *China*.

Applications:

The Changan Deepal SL03 electric car is a new energy vehicle that is designed with five seats and is a plug-in hybrid. This means that the car is powered by a battery, which can be recharged by plugging it to an electrical power source. Additionally, the car has a combustion engine, which provides power to the vehicle and also charges the battery.

The Changan Deepal SL03 electric car is an excellent option for individuals who are looking for an eco-friendly and cost-effective vehicle. As the vehicle is a plug-in hybrid, it provides a better range than traditional electric vehicles, since it also has a combustion engine. Moreover, the car is designed to provide excellent performance and stability while driving, thanks to its advanced technical features and systems.

With the Changan Deepal SL03 electric car, drivers can enjoy a smooth and quiet ride, as the vehicle produces low noise and vibration. Additionally, the car is equipped with various safety features, including airbags, antilock brakes, and electronic stability control. This makes driving the vehicle more secure and minimizes the risk of accidents and collisions.

Finally, the Changan Deepal SL03 electric car has a sleek and stylish design that is sure to turn heads. Its exterior and interior are both well-crafted and provide a combination of elegance and functionality. The car is also designed to be easy to use and maintain, making it an ideal option for individuals who want a hassle-free and enjoyable driving experience.
