## Product Description

### Product Description:

Introducing the China New Energy Vehicles Hybrid 5 Seats 160KM SUV, also known as the BYD Song L DM-i EV Electric Car. This innovative vehicle is a true testament to China's commitment to reducing carbon emissions and promoting sustainable energy. Equipped with a hybrid engine, the BYD Song L DM-i EV Electric Car is able to switch between its gasoline engine and electric motor seamlessly, providing a more efficient and eco-friendly driving experience. With a range of up to 160KM on a single charge, this SUV is perfect for city commutes and long road trips alike.

Inside, the 5-seat cabin is designed with comfort and convenience in mind. The spacious interior provides plenty of legroom and headroom for passengers of all sizes, while the advanced infotainment system keeps everyone connected and entertained throughout the journey.

Overall, the China New Energy Vehicles Hybrid 5 Seats 160KM SUV BYD Song L DM-i EV Electric Car is a top-of-the-line option for those who prioritize sustainability and performance in their driving experience.

## Products Description

### Features:

The BYD Song L DM-i EV electric car is a five-seater sport utility vehicle with a range of 160 kilometers. It falls under the category of China New Energy Vehicles Hybrid and is an eco-friendly option for those looking for a comfortable and spacious ride.

BYD is a major Chinese car manufacturer that has taken strides in producing more electric vehicles, with the Song L DM-i EV being one of their notable offerings. It combines the capabilities of a hybrid vehicle with a completely electric car and is perfect for individuals who need to travel long distances without having to constantly worry about refueling.

Not only is the car efficient, but it is also sleek and stylish, with a modern design that is sure to impress. The five-seater configuration makes it ideal for families and groups of friends who need to travel together.

### Technical Parameters:

The BYD Song L DM-i EV Electric Car is a new energy vehicle produced in China that combines hybrid technology with a 160KM range and 5 seats. It is considered as an SUV that is both practical and environmentally friendly.

China is a country that is leading the world in producing electric cars and developing the infrastructure to support these vehicles. The BYD Song L DM-i EV Electric Car is just one example of the innovative and sustainable technologies coming out of China.

The hybrid technology used in the BYD Song L DM-i EV Electric Car provides a balance of power and efficiency. This technology allows the car to switch between electric power and gas power as needed, maximizing the car's range and reducing its carbon footprint.

### Applications:

The electric vehicle industry in China has been booming in recent years, with a growing number of consumers opting for eco-friendly transportation options. One company that has gained significant attention in the market is BYD, with their new energy vehicle offerings. One of their latest models is the BYD Song L DM-i EV, a 5-seat, 160KM range SUV that is a hybrid vehicle, combining electric and gasoline power. This makes it a great choice for those looking for a vehicle that is environmentally friendly but still has the range and capabilities of a traditional vehicle.

With the popularity of hybrid and electric vehicles on the rise, it is clear that manufacturers like BYD are making strides in producing innovative and sustainable transportation solutions that satisfy the needs of today's consumers.

### Packing and Shipping:

#### Product Packaging:

Our Electric EV Cars are carefully packaged to ensure safe delivery. Each car is placed in a sturdy cardboard box with ample padding to prevent any damage during shipment. The box is then sealed and labeled with the necessary shipping information.

#### Shipping:

We offer free shipping for all Electric EV Car orders within the continental United States. Shipping times may vary depending on your location, but we strive to deliver all orders within 7-10 business days. For international orders, please contact us for shipping rates and times.
