Basic Information

- Place of Origin: Shenzhen
- Brand Name: BYD
- Model Number: BYD Yuan UP
- Minimum Order Quantity: 1
- Price: 13650-16860
- Packaging Details: Normal
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 10

Product Specification

- Sunroof: No
- Steering System: Electric
- Rear Window: Electric
- Size: 4775x1890x1670mm
- Fuel Type: Electirc
- Forward Shift Number: 5
- Autopilot: Yes
- Type: SUV
- Highlight: Electric Steering System EV SUV Cars ,
Electric Rear Window EV SUV Cars ,
Autopilot EV SUV Cars

Product Description

Product Description:

In 2024, there will be a new electric car available on the market. This car is a five-seats SUV that is powered entirely by electricity. It has an impressive range of 301 kilometers on a single charge, and an even more impressive range of 401 kilometers with an upgraded battery. This car is the BYD Yuan UP EV, and it is a great option for anyone looking for an eco-friendly vehicle that doesn't compromise on style or performance.

The BYD Yuan UP EV is perfect for those who are concerned about the environment, as it produces zero emissions and does not rely on fossil fuels. This electric car also offers a smooth and comfortable ride, making it a great choice for families or anyone who values safety and comfort.

With its advanced technology and sleek design, the BYD Yuan UP EV is sure to turn heads on the road. This electric car offers advanced features such as regenerative braking, which helps to extend its range and reduce the need for frequent charging. It also comes equipped with a range of safety features to ensure that you and your passengers stay protected while on the road.

Specifications:

Model: BYD Yuan UP EV

Seats: 5

Power: Electric

Range: 301km (standard battery) or 401km (upgraded battery)

Features:

Regenerative braking

Advanced safety features

Sleek design

Comfortable ride

Zero emissions

Features:

In the year 2024, the automobile industry will witness the launch of a new breed of vehicles that run on renewable energy sources. These vehicles are referred to as New Energy Vehicles or NEVs for short. One of the popular models in this category is the 5-seat SUV that boasts of impressive performance.

The SUV is manufactured by BYD, a Chinese automobile manufacturer that specializes in electric vehicles. This particular model is known as the BYD Yuan UP EV Electric Car and it boasts of a range of 301km to 401km on a single charge depending on the variant one chooses.

This model is packed with features that make it an ideal vehicle for those who are concerned with the environment and sustainability. With zero emissions and low maintenance costs, the BYD Yuan UP EV Electric Car is not only an eco-friendly option, it is also a cost-effective one.

Technical Parameters:

Introduction

In 2024, there will be a new energy vehicle hitting the market. This vehicle is a five-seater SUV that runs solely on electric power. This new car is called the BYD Yuan UP EV Electric Car and is set to revolutionize the automotive industry.

Features

The BYD Yuan UP EV Electric Car has two major features that sets it apart from traditional gas-powered vehicles: its mileage and its power source. With a range of 301KM, this electric SUV can travel for extended distances without needing a recharge. Additionally, this vehicle runs entirely on electric power, which means there are no gasoline emissions, making it an eco-friendly choice for environmentally-conscious drivers.

Performance

In terms of performance, the BYD Yuan UP EV Electric Car is powered by state-of-the-art electric technology that provides a smooth and quiet ride. The electric motor generates 401KM of horsepower, which gives the vehicle a surprisingly quick acceleration.

Conclusion

Overall, the 2024 BYD Yuan UP EV Electric Car is a game-changer in the automotive space. Its long mileage and environmentally-friendly power source make it a top contender for those looking for an eco-conscious SUV. The powerful motor and smooth driving experience make it equally attractive to those seeking performance. This new car is worth considering for anyone in the market for a new vehicle.

Applications:

In 2024, BYD will be releasing a new electric car model that is categorized as a New Energy Vehicle (NEV). This NEV will be a 5-seater SUV equipped with advanced electric technology, and it promises to deliver an exceptional driving experience for car enthusiasts.

The NEV is powered by a fully electric motor that provides a range of up to 301KM on a single charge. Moreover, with the option to upgrade to a more powerful battery, the NEV can reach a range of up to 401KM, offering drivers the convenience of longer travel times without the need for frequent charging.

The sleek and futuristic design of the car, coupled with its impressive features, makes it an excellent option for drivers who want to minimize their impact on the environment while enjoying the benefits of an advanced all-electric vehicle.

The BYD Yuan UP EV Electric car is the epitome of innovation and progress, and it will undoubtedly change the landscape of the automobile industry for years to come.

Packing and Shipping:

Product Packaging:

The Electric EV Cars will be packaged in a sturdy cardboard box with foam inserts to protect the vehicle during transport. The box will also contain an instruction manual and charging cable.

Shipping:

The Electric EV Cars will be shipped via a reliable courier service such as FedEx or UPS. Shipping times will vary depending on the destination, but customers can expect their vehicle to arrive within 5-7 business days after placing their order.
