Basic Information

- Place of Origin: Shenzhen
- Brand Name: Mercedes Benz
- Model Number: C-Class
- Minimum Order Quantity: 1
- Price: 33650-42860
- Packaging Details: Normal
- Delivery Time: 15
- Payment Terms: T/T
- Supply Ability: 10

Product Specification

- Steering System: Electric
- Size: 4775x1890x1670mm
- Condition: New
- Cabin Structure: Integral Body
- Top Speed: 180Mph
- Interior Color: Dark
- Sunroof: No
- Port: Shenzhen
- Highlight: Hybrid Mercedes Benz C Class,
Mercedes Benz C Class Electric EV

Product Description

Product Description:

2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car For Mercedes Benz

In 2025, Mercedes Benz will launch a new energy vehicle that is a hybrid of electricity and traditional fuel sources. This car will be part of the C class and will harness the latest technology in order to make transportation more eco-friendly and sustainable.

The electric EV car is a step forward for Mercedes Benz, as the company has been investing heavily in the development of new energy vehicles in recent years. With the launch of this car, Mercedes Benz is demonstrating its commitment to reducing carbon emissions and creating more sustainable transportation options for its customers.

The hybrid Mercedes Benz C Class Electric EV Car will bring several benefits to drivers, such as decreased fuel consumption and lower emissions. Additionally, this car will offer advanced technology features and a sleek design that is sure to turn heads on the road.

Products Description

Features:

Introducing the 2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car

Mercedes Benz is proud to announce the release of the 2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car. This innovative vehicle combines the luxury and performance you have come to expect from Mercedes Benz with the latest advancements in electric vehicle technology.

The Hybrid design of this vehicle ensures that you get the best of both worlds. It uses a combination of an electric motor and a gasoline engine to deliver optimal performance and fuel efficiency. With this car, you can make a positive difference in the environment without sacrificing the performance and luxury that Mercedes Benz is known for.

The 2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car was designed to be a game-changer in the electric vehicle industry. It boasts impressive features such as a sleek and modern design, state-of-the-art technology, and a comfortable and spacious interior. This car is perfect for those who want to make a statement while caring for the environment.

Overall, the 2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car represents the future of sustainable transportation. Experience the luxury, power, and performance of this vehicle while reducing your carbon footprint at the same time.

Technical Parameters:

Introducing the 2025 New Energy Vehicles Hybrid Mercedes Benz C Class Electric EV Car

Mercedes-Benz has been a pioneer in the automotive industry for decades and is known for producing handcrafted, luxurious vehicles. In keeping up with the changing times, the company has now introduced its 2025 New Energy Vehicles Hybrid Mercedes-Benz C-Class Electric EV Car.

This car is an eco-friendly hybrid electric vehicle and a testament to the commitment of Mercedes-Benz towards sustainability. The hybrid engine incorporates both a gas engine and an electric motor to power the car, providing the driver with the best of both worlds in terms of performance and fuel efficiency.

The electric engine is also an impressive innovation that reduces the carbon footprint of the car. The car offers a smooth and silent ride without any vibrations, making it a comfortable driving experience for the driver and passengers.

If you are looking for a car that combines luxury with sustainability, the 2025 New Energy Vehicles Hybrid Mercedes-Benz C-Class Electric EV Car is the perfect choice for you.

Applications:

Mercedes-Benz will be introducing a new hybrid electric vehicle in 2025. The C-Class Electric EV Car will feature cutting-edge technology and offer drivers a more sustainable option for transportation. This move towards new energy vehicles highlights Mercedes-Benz's commitment to reducing their carbon footprint and promoting eco-friendly practices.

The hybrid electric vehicle will utilize both electric and gasoline power, allowing it to operate efficiently while also offering extended range capabilities. This means that drivers can enjoy the benefits of electric power while still having the ability to travel longer distances without worrying about running out of battery power.

The C-Class Electric EV Car will also be equipped with advanced features and luxurious amenities that Mercedes-Benz is known for. This includes state-of-the-art infotainment systems, premium sound systems, and top-of-the-line safety features to ensure a comfortable and secure driving experience for all passengers.

Mercedes-Benz is excited to offer the new C-Class Electric EV Car, which is a testament to their dedication to innovation and commitment to sustainable practices. This hybrid electric vehicle represents a step forward in the auto industry's efforts to reduce carbon emissions and promote a more eco-conscious future.
